**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND INTERNAL
CONTROL OVER COMPLIANCE APPLICABLE TO EACH MAJOR FEDERAL
AWARDS PROGRAM AND STATE FINANCIAL ASSISTANCE**

Honorable Board of County Commissioners
Honorable Mary M. Johnson, Clerk and Accountant to the
Board of County Commissioners
Santa Rosa County, Florida

Compliance

We have audited the compliance of the Board of County Commissioners of Santa Rosa County, Florida (hereinafter referred to as "Board"), with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement*, and the requirements described in the Executive Office of the Governor's State Projects Compliance Supplement, that are applicable to each of its major federal awards programs and state financial assistance projects for the year ended September 30, 2001. The Board's major federal awards program and state financial assistance projects are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal awards programs and state financial assistance projects is the responsibility of the Board's management. Our responsibility is to express an opinion on the Board's compliance based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; and Chapter 10.550, Rules of the Auditor General. Those standards, OMB Circular A-133, and Chapter 10.550, Rules of the Auditor General, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal awards program or state financial assistance project occurred. An audit includes examining, on a test basis, evidence about the Board's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Board's compliance with those requirements.

In our opinion, the Board complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal awards programs and state financial assistance projects for the year ended September 30, 2001.

Internal Control Over Compliance

The management of the Board is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal awards programs and state financial assistance projects. In planning and performing our audit, we considered the Board's internal control over compliance with requirements that could have a direct and material effect on a major federal awards program or state financial assistance project to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and Chapter 10.550, Rules of the Auditor General.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal awards program or state financial assistance program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Expenditures of Federal Awards and State Financial Assistance

We have audited the special purpose financial statements of the Board of County Commissioners of Santa Rosa County, Florida, as of and for the year ended September 30, 2001, and have issued our report thereon dated January 25, 2002. Our audit was performed for the purpose of forming an opinion on the special purpose financial statements taken as whole. The accompanying Schedule of Expenditures of Federal Awards and State Financial Assistance is presented for purposes of additional analysis as required by OMB Circular A-133 and Chapter 10.550, Rules of the Auditor General, and is not a required part of the special purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special purpose financial statements taken as a whole.

This report is intended solely for the information and use of the Board, management, and appropriate federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
